

Header line: I build free, open-source tools that coding agents and teams run on machines they control — then I send the hard fixes back upstream. Python · TypeScript · MCP. Every release audited: SLSA provenance, SHA-pinned CI, byte-identical proofs in CI.

reimagine-it ★ 85 v2.13.1 · CLI + Agent Skill
Content-Derived Design: redesigns an HTML page from its own nouns, dates, numbers, and colors — never invented. 17 design directions at 96.8% measured distinctness, deterministic 19-rule audit, MCP server, GitHub Action, live playground. Used via CLI, npx skills, and five agent hosts.
github.com/Kayforkind/reimagine-it · kayforkind.github.io/reimagine-it

NavigatorsLab PDF Studio
Free, private PDF editor, 100% in-browser: edits the text inside the PDF, fills and flattens AcroForms, OCRs scans on-device, signs, redacts, diffs revisions, on-device LLM Q&A. Files never leave the machine.
kayforkind.github.io/NavigatorsLab-PDF-Studio

NavigatorsLab Tools 15 utilities
GPS strip, image shrink to target size, PDF sign/pages/merge, receipt OCR→CSV, private QR, word-level contract diff, audio trim, invoices, EXIF rename, print prep. No uploads; nothing retained.
navigatorslab.com/tools

book-guide-mcp · study-guide · design-health-action
MCP playbooks/tutors for coding agents from books you own · certification-prep platform · the 18 deterministic design checks as a standalone CI gate.
github.com/Kayforkind — all MIT

AUDIT POSTURE

Supply chain

npm releases ship **SLSA provenance** + cosign signatures; all CI actions SHA-pinned; Dependabot; secret-scanning push protection; OpenSSF Scorecard **7.0**.

Verification culture

17 committed artifacts regenerate byte-identically in CI — including six real public-domain government pages (NPS, NASA, NOAA, Census, Federal Register, Smithsonian). **116 tests** over a 155-file parity corpus; docs and README parity enforced by CI.

Delivery discipline

Single protected **main**: every change lands by PR through **16+ required checks**. Benchmark: 100/100 on all 17 design tokens × 4 sources.
